# 6th European ETICS Forum 2022

Renovation wave: ETICS for Energy Efficiency

19th May 2022 - in Prague/Czech Republic

# Fabric first: Europe's first fuel

Jacek Kulig, EAE President

Welcome to EAE's 6th European ETICS Forum 2022 in Prague! We are satisfied to have our first meeting in presence after more than two years and look forward to interesting speeches, fruitful discussions and personal contacts during this high-level conference. Special thanks go to our Czech member association CZB for co-organising and to our sponsors making this event happen.

The world around us has changed dramatically in recent years. The fight against climate change, the necessary economic recovery from the pandemic and latest geopolitical developments affecting energy security have demonstrated that the transformation of our societies and economies is urgently needed.

Europe's huge and aging building stock accounts for nearly 40% of the CO2 emissions and around 40% of the energy demand. This sleeping giant offers a great leverage to achieve carbon neutrality, economic recovery, energy security and wellbeing of people in parallel. The tools are known, technical solutions have proven in practice.

EAE's conference aims to demonstrate that the ETICS sector stands ready to deliver. We will discuss how the entire value chain will contribute achieving the ambitious objectives of the European Green Deal, the Renovation Wave, the Recovery & Resilience Package and the European Commission's latest RePowerEU communication.

Energy efficiency is Europe's first fuel as the cheapest and greenest energy is the one not needed. Let's start with fabric first!

## PROGRAM 6th European ETICS Forum 2022

### Registration

**From 08:30** Registration of participants  
Welcome coffee & exhibition

### Section I: Welcome & introduction

**09:30-10:00** Welcome  
*Jacek W. Kulig, SSO, EAE President, Poland*

**Cech pro Zateplovani Budov Ceska Republika (CZB) – a short introduction**  
*Pavel Svoboda, CZB, Chairman of the board, Czech Republic*

**The important role of energy-efficient refurbishment in Czechia**  
*Pavel Zámyslický, Director of the Department of Energy & Climate Protection at Ministry of Environment, Czech Republic*

**10:00-10:20** Insights of European ETICS market – facts & figures  
*Ralf Pasker, EAE Managing Director, Germany*

**10:20-10:35** Efficiency first: decade of action – from a global perspective  
*Mr. YANG/Xiwei, Chief Engineer of CABEE (China Association of Building Energy Efficiency), China*  
*Prof. Tatsuki Tanaka, President, Japanese Association for Housing Thermal Insulation Technology Corp., Japan*

**10:35-10:45** Questions & answers

**10:45-11:15** Coffee break & exhibition

### Section II: ETICS deliver on the European Green Deal

**11:15-11:30** The Renovation Wave – let it roll!
